Machining Brake Drums And Rotors
Chapter 15

ACROSS
1. Lateral runout
3. Heat travels from the friction surface
7. Surface finish is measured in units called
10. Tool advance
11. Side-to-side wobble
12. Even force
13. Uneven heat distribution
14. Thickness variation
15. Rotors
16. Lesser form of drum and rotor cracking
17. Drum distortion
18. Extreme wear
19. Steel center section

DOWN
2. Lack of parallelism
4.存在几何中心不一致
5.硬点
6. Open edge distortion
8. Impurities
9. Metal clips
